EDP Renewables is a wind industry leader in Illinois. The company’s footprint in the state includes the Bright Stalk Wind Farm, the Rail Splitter Wind Farm, two phases of the Top Crop Wind Farm, and two phases of the Twin Groves Wind Farm.

**Economic Benefits**

- **Our Illinois projects represent a capital investment of approximately $1.7 billion.**

- **Approximately $60.6 million in cumulative payments to local governments through 2018.**

- **More than $70.3 million paid to local landowners through 2018.**

- **Supported 727 jobs during project construction and created 66 permanent jobs in Illinois.**

- **$1.4 billion spent within the state of Illinois through 2018.**

- **Median annual salary for a wind technician is $54,370.**

EDPR's Illinois wind farms produce enough clean electricity to power more than 343,000 Illinois homes.
Wind Power In Illinois

Total Installed Wind Capacity: 4,887 MW
State Ranking for Installed Capacity: 6th
Wind Projects Online: 50
Number of Wind Turbines: 2,778
Percentage of In-State Energy Production: 6.8%
Equivalent U.S. Homes Powered: 1.2 Million
Wind Industry Employment: 7,001 to 8,000
Wind Manufacturing Facilities: 34
Total Project Investment: $9.9 Billion
Annual Land Lease Payments: $10-15 Million

EDPR's projects are compatible with other land uses.

EDPR's Illinois projects save more than 1.4 billion gallons of water each year.\(^5\)

EDPR’s clean energy projects provide energy security and help diversify supply.

About Us

EDP Renewables North America LLC (“EDPR NA”) and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 50 wind farms, five solar parks, and eight regional and development offices across North America, EDPR NA has developed more than 7,100 megawatts (MW) and operates more than 6,500 MW of renewable energy projects. With approximately 675 employees, EDPR NA’s highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. (“EDP Renewables” or “EDPR”), a global leader in the renewable energy sector and the world’s fourth-largest wind energy producer. With a sound development pipeline, first-class assets, and market-leading operating capacity, EDPR has undergone exceptional development in recent years and is currently present in 14 markets (Belgium, Brazil, Canada, Colombia, France, Greece, Italy, Mexico, Poland, Portugal, Romania, Spain, the United Kingdom, and the United States). Energias de Portugal, S.A. (“EDP”), the principal shareholder of EDPR, is a global energy company and a leader in value creation, innovation, and sustainability. EDP has been included in the Dow Jones Sustainability Index for 12 consecutive years.

EDPR’s projects are compatible with other land uses. The vast majority of wind farm equipment is manufactured in the United States.

The vast majority of wind farm equipment is manufactured in the United States.

1Power generation calculated using a 35% capacity factor for wind and 25% capacity factor for solar. Household consumption based on 2017 EIA Household Data monthly average consumption by state.
3Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.
